

Morality and Social Cognition (MASC) Lab Application
for Undergraduate Research Assistants (PSYC 290, 494)
PI: Sean M. Laurent, Ph.D.

Thank you for your interest in the MASC Lab! In our lab, we study moral and social cognition, with a particular emphasis on person perception and the role of mental state inference on person perception.

For a number of reasons, we prefer to recruit undergraduate research assistants who are considering post-graduate training in *social* psychology, rather than another field. However, we will consider any student who is interested in applying, with our primary considerations being a good attitude, conscientiousness (e.g., doing what one has promised to do promptly and well, showing up on time, following lab rules, etc.), and willingness to be flexible.

Name: _____ Phone # you can be reached at: _____

What times are okay to call you at the listed number? (if ever): _____

Student ID #: _____ Preferred E-mail address: _____

How many credit hours per week do you want to work? _____

(Note: 1 credit hour = 3 hours work per week.)

What psychology courses have you taken?

What is your cumulative GPA? _____ What is your psychology GPA? _____

What year are you in? _____ When do you plan to graduate? (year & semester) _____

What is your major?

Are you interested in being an RA for at least two semesters? Longer?

Do you have any previous experience being a research assistant? If so, please describe below:

Why are you interested in an RA position in our lab in particular?

Briefly, what are your future education/career plans? Are you planning on applying to graduate school in psychology? If so, are you considering social psychology or another concentration?

References--Please provide the name of and contact information (email address is fine) for one or more faculty members or graduate teaching assistants who could provide a reference for you:

What days/times will you have available in the coming semester for lab-related work?
